# Site 2000

# Astronomical Site Evaluation in the Visible and Radio Range

## TOPICS:

- Site characterization
- Atmospheric Transparency (mm/submm)
- Physical mechanisms of atmospheric turbulence
- Measuring instruments
- Tropospheric phase instability and compensation
- Forecasting
- Site survey
- Astroclimatic stations
- Phase correction: Adaptive optics and Interferometry

Scientific Organizing Committee

Z. Benkhaldoun, Marrakech University
M. Chun, Gemini, USA
R. Giovanelli, Cornell University, USA
C. Muñoz-Tuñón, IAC, Spain
R. Racine, Montreal University, Canada
S. Radford, NRAO, USA
L. Rodríguez, UNAM, Mexico
M. Sarazin, ESO, Germany
J. Vernin, Nice University, France

**An IAU/UAI Technical Workshop**

**hosted by Cadi Ayyad University and Faculté des Sciences Semlalia**

Marrakech, Morocco, 13–17 November 2000
