# Astronomy & Astrophysics

## General Information

Springer Verlag

---

Dear author,

The Board of Directors has decided that from now on all manuscripts, including letters, submitted to A&A have to be written in  $\LaTeX$  with Springer's  $\LaTeX 2_{\epsilon}$  A&A macro package.

You can obtain the A&A macro package via our anonymous ftp server

host: `ftp.springer.de` (192.129.24.12),  
directory: `/pub/tex/latex/aa`

You can also send an email to `svserv@vax.ntp.springer.de` containing the line:

`send /tex/latex/aa.zip`

For advice on  $\TeX$  problems please send an email to `texhelp@springer.de`.

Authors are required to submit two hardcopies for the referees (this requires the `referee` option to be set in the `\documentclass` declaration) to either of the editors:
