

International Max-Planck Research School on Astrophysics
at the Ludwig-Maximilians-University of Munich

PhD in Astrophysics

We are a joint graduate school of

- the Max-Planck Institut für Extraterrestrische Physik (MPE),
- the University Observatory of the University of Munich (USM),
- the Max-Planck Institute for Astrophysics (MPA),
- the European Southern Observatory (ESO).

Together, we form one of the largest centers of astrophysical research in the world, covering every subject from planets, stars, and galaxies to cosmology. Access to the world's largest telescopes and a stimulating scientific environment provide students with ideal conditions for their PhD research.

Successful applicants will be awarded a PhD fellowship. IMPRS supports students with all administrative matters, such as VISA, housing, etc.

Application due date is Nov. 15th.
