

ESO Engineering & Technology

**Fellowship, Studentships
and Internships 2019–2020**

You are finishing or have recently finished your degree in engineering or physics and you want to study challenging technologies in an international, multi-disciplinary high-tech environment?

Then come and help us on one of our R&D projects as a Master student, a PhD student or a post-doctoral fellow.

More info under <http://www.eso.org/engfellowship/>

Deadline: 30 August 2019 for fellowships and studentships

European Southern Observatory
