This Summer School is an opportunity for university students from STEM fields who are currently an M.Sc. or first year Ph.D. students. Students must be proficient in both spoken and written English (the working language of the programme). We will consider applications from students taking any astronomy, physical science, computer science or maths degree subjects. Students will be selected for the programme based on their academic potential and likelihood to significantly benefit from the experience. Students that need a visa to travel to Germany are responsible for obtaining the visa. Successful applicants are warmly encouraged to start the procedure as soon as they receive the offer to attend the programme (i.e., ~three months before the start of the programme). The ESO Human Resources department will be able to provide them with any specific required documents for the visa request to the consulate/embassy. *
