## ESO – European Organisation for Astronomical Research in the Southern Hemisphere

invites applications for the position of a

### European Affairs Officer

Assignment: The successful candidate will

- Identify relevant funding possibilities within the EC Framework Programme and other activities, advise applicants and monitor the progress of applications and contracts;
- Follow developments in European Science Policy and provide advice to the ESO management;
- Assist with ESO's interaction in the EIROforum partnership;
- Organise policy-related debates and events in member states as well as in the institutions of the EU, attracting key decision-makers and media;
- Organise special visits and events for opinion formers and target groups in member states.

Qualification and Experience: Advanced university degree in Science, preferably astronomy/astrophysics. Knowledge of contemporary science policy issues as well as of the EC Framework Programme and other European funding schemes is required. Experience in interaction with science administrators and policy makers at all levels is necessary. Experience in public science communication and interest in societal aspects of science are an advantage. Fluency in English is essential as well as a good knowledge of French.
